

# Lessons Learned about Project Management: Alaska Style

**Will Harman, PG**  
**[wharman@stream-mechanics.com](mailto:wharman@stream-mechanics.com)**

# Welcome to Chicken

## How did we get there?

- Team-Building
- Adaptive Management

# Team Building

- Include all stakeholders.
- Building a team takes time.
- Build teams of teams.
  - Teams with sub-teams.
  - Put the right people in the right spot.
  - Be creative.
- Pick people with a can-do attitude.

# Adaptive Management

- Let all stakeholders know that it's part of the process.
  - Set aside funding
- It's not just about managing channel stability. It can mean changing the way the project is managed, and can occur at anytime.
